

PREVENTIVE MEDICINE.

Typhoid Fever.

Typhoid fever is an infectious disease caused by the typhoid bacillus which, entering the body in food stuff, passes through the stomach into the intestines. Here it grows and, when an opportunity presents itself, passes through the intestinal wall into the blood stream by which it is carried to all parts of the body. In this way, the entire body of the typhoid patient is teeming with typhoid germs. All of the excreta, such as saliva, vomitus, urine, and feces contain typhoid germs.

This infected excreta is the means for carrying the typhoid germs from the patient to the outside world. In the excreta the typhoid germs live from a few days to several months. Freezing retards their growth but does not kill them. Sunlight kills the germ only when the germs are directly exposed to the light. In the dried excreta, germs may live from one to two months. Owing to the resistance of germs in excreta to cold and dryness, the excreta becomes a menace to the family of the patient, to the neighbors, and to the community.

Address questions on prevention of diseases to Preventive Medicine, University of Missouri Columbia.

A WINNING CAMPAIGN

A winning campaign is being conducted in this Fifteenth Congressional district by the democratic party. During the past week Hon. Perle D. Decker of Joplin, democratic nominee for congress has been conducting a whirlwind campaign through Barry county. Everywhere he has been greeted by large and enthusiastic crowds. Farmers from many miles have come to the different halls to hear the Joplin orator and all have been pleased with his clear and forceful expositions of the day. Mr. Decker's stand on the tariff which is identical with that of the national democratic platform recently drawn at Baltimore is very pleasing to the farmers. Not only are the democratic farmers in line but many republicans are falling in line for the democratic nominee.

At one point a father and four sons, all life long republicans, the father having voted for every republican president from Lincoln to Taft were heard to declare that they would cast their first democratic ballot this year for Decker and the balance of the democratic ticket.

In his contest for congress Mr. Decker is leaving his republican opponent, I. V. (postmaster) McPherson, far in the rear, while Col. Gregg, the progressive candidate, has very little if any following in Barry county because it is outside the mining district and the high tariff policy of the bull moose does not appeal to the democrats and no bolter appeals to the republicans, who if disgusted with their party do not care to belong to a "bolter's party" but are now affiliating themselves with the democratic party. **
